Cascade

River *Cascade*
Document Intelligence

Smart Document Processing Made Simple

AI-powered document processing made fast, accurate, and scalable.

- *Cascade* is Riverstone's AI-powered platform that turns unstructured documents—PDFs, scans, Word files—into clean, structured data.

- From classification to validation, *Cascade* automates every step, blending AI with human oversight for unmatched accuracy and speed.

Key Metrics

- 80% faster loan audit cycles

- Supports 50+ document types

- 1,000+ pages processed in minutes

- 250+ compliance checks automated

Pricing & Support

- Starts at $99/month

- Unlimited docs in Premium Plan

- One-time $450/template training

- Ongoing support & onboarding

Let AI read and extract your documents.

Cascade

Features

Smart Data Extraction
- Reads multi-page, complex layouts.

Rule-Based Validation
- 250+ compliance checks

Cloud-Ready & Scalable
- Serverless on Microsoft Azure

Enterprise-Grade Security
- Data encryption & access control

Discrepancy Detection
- Flags missing or inconsistent data

Support Built-In
- Training, testing & continuous support

Built for Your Industry

Banking & Finance
Loans, audits, KYC, credit docs

Healthcare & Insurance
Claims, HIPAA, pre-auth records.

Real Estate & Legal
Leases, affidavits, contracts.

Manufacturing
BOMs, catalogs, supplier data.

Logistics & Supply Chain
Orders, inventory, shipping forms.

Challenges

- Too many pages and document types
- Manual checks cause mistakes
- 250+ rules hard to apply manually
- Systems can't handle growth
- Risk of exposing sensitive data

Solutions

- Automated classification and processing
- AI-driven data extraction ensures accuracy
- Automated rules engine validates data
- Scalable, serverless cloud setup
- Encryption and strict access controls

Process documents without manual work.
